OFFICE OF THE PRESIDENT

May 16, 1985

The Honorable William T. Casey  
Director  
Central Intelligence Agency  
Washington, D.C. 20505

Dear Mr. Casey:

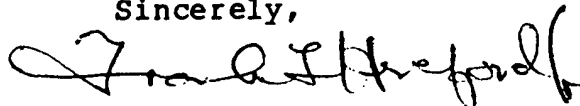

The University of Virginia strongly encourages adoption of the National Security Council draft (June 15, 1984) "National Policy on the Transfer of Scientific & Technical Information."

We believe that the subject of the policy has been thoroughly examined and that the policy statement protects both the national security and the academic right of inquiry.

Without the policy, there are uncertainties and inconsistencies in controlling the flow of fundamental research information from colleges and universities. In the process neither the interests of national security nor the process of discovery are well served.

Your consideration is encouraged.

Sincerely,

Frank L. Hereford, Jr.  
President
